

MFC-4550 MULTI-FUNCTION CENTER FIVE in ONE

[FAX]

You get a high quality, feature packed laserplain paper fax. It can store up to 40 pages* for out of paper reception, send faxes at up to six seconds* per page, broadcast faxes up to 59 locations, and quickly scan your documents into memory before they are sent so you don't have to wait for your originals. Its large paper capacity, 30 page document feeder and 200 sheet paper cassette mean you'll be ready to take care of business.

[PRINTER]

Your business needs a printer that can combine speed, quality output and low running costs. The MFC 4550 does just that with up to 6 page per minute printing, true 600x600 dpi laser output, power saving mode and a lower cost per copy than inkjet printing. The standard 512kB memory uses enhanced memory management that allows you to print a full page of graphics. It is optimized for printing under your Windows(R) 3.1, 3.11 or W95 environment.

[COPIER]

Why run out for copies? Having a convenience copier right at your desk makes you more productive and saves time. Enlarge and reduce too.

[SCANNER]

You know you needed a scanner in the past but you never felt it was worth it to buy one separately. With the MFC4550's TWAIN compliant scanner you can scan text, logo's, line art or business graphics into your Windows(R) application at up to 8 pages per minute. You can scan at up to 400 x 400 dpi (interpolated) resolution. A easy to use Viewer / Image editor and drag and drop filing system makes document management easy and fast.

[PC FAX]

Fax directly and easily from the included fax software for great looking faxes. Receive your faxes on the machine or directly into the PC before printing to eliminate junk faxes and for easy fax archiving. Fax menu adds the "Send Fax" command to file menu of most windows application and makes sending PC faxes easy. Attach faxes and Scanned images to E-mail
